

Linear statistical models

The end

Yao-ban Chan

The exam

- ▶ The exam consists of 7 questions.
- ▶ It is 3 hours long and has 15 minutes reading time.
- ▶ The total number of marks allocated is 90.
- ▶ It is a closed book exam, but you will be able to take two A4 double-sided handwritten sheets of notes.
- ▶ You must bring a calculator, but only the Casio FX82 model.
- ▶ Don't forget student ID and pens. . . and your brain.

The exam

The questions cover:

- ▶ Linear algebra (mostly theory);
- ▶ Multivariate distributions (mostly practical);
- ▶ The full rank model (theory);
- ▶ The full rank model (practical);
- ▶ The less than full rank model (theory);
- ▶ The less than full rank model (practical);
- ▶ Experimental design (mostly theory).

Notes sheet

What should you put on your notes sheet? Let's see. . .

Consultation hours

There will be consultation hours, but at different times:

- ▶ Monday June 3 and 17, 10–11am;
- ▶ Wednesday June 5 and 12, 10–11am;
- ▶ Thursday June 6 and 13, 10–11am.

There will also be other consultation times (check the LMS).
